

# How to Take a Class at Homewood

## Find Your Class

In SIS, select **Advanced Search**, choose **Krieger School of Arts & Science (KSAS)** and the academic departments of interest. Review the class information.

---

## Obtain Approval (if necessary)

Look in the SIS course description to see if there are **enrollment restrictions** (prerequisite, majors-only, etc.). If there are, or if the course is full, request enrollment permission by email from the faculty.

---

## Confirm It Will Count

If you want to make sure the course will count toward your **Peabody requirements**, check with Peabody Advising.

---

## Complete IDR Form

You can't enroll yourself directly in SIS for a class at another JHU school. Search the Peabody website for **Interdivisional Registration (IDR)** and complete the online IDR form. Include any necessary approvals. (see above)

---

## Look for Enrollment Confirmation

Homewood Registrar's Office will enroll you **after Homewood students register**, even if your IDR is in earlier. Start looking for confirmation of your enrollment a few weeks before the new semester.
